#### **COVID-19: SHARP REDUCTION IN FORESTRY TRADE**

#### TRADE IMPACT

The high Chinese log market inventory and extended Chinese new year period due to COVID-19 slowed log exports

Alert Level 4 ('AL4') from 26th March, Alert Level 3 from 28th April

Main operational impacts during AL4:

- timber, logs, pulp and other non-essential products ceased coming to port
- shut down of our Port Pack operation after all on-port inventory was packed
- seven remaining cruise calls cancelled
- 6 Wharf construction on hold for AL4 period

During AL4, on-port non-essential cargo was allowed to be exported & imports cleared from our sites

Whilst benefiting, relative to other businesses, from being a lifeline infrastructure asset with essential status, we have experienced decreased revenue during the lockdown period

Enduring local, national and global economic impacts remain uncertain

#### **COVID-19: PRUDENT RESPONSE PLAN**

#### **RESPONSE**

People-first safety measures, COVID related leave support

Despite disrupted operations, essential services to the region maintained

Aiming to reduce or defer expenditure while looking after our people and not compromising operational capability

Measures to prudently mitigate some of the revenue cashflow loss and protect the forecast balance sheet

Focus on cash expenditures for 18 month period to end of FY21

- Reduction in director fee pool of 20%¹ for 6 months
- Deferral, on renewal, of wage and salary increases for one year
- Specific cost reductions and deferrals across capital and operational expenditure
- Receipt of the Government Wage Subsidy<sup>2</sup> of \$2m
- Cancellation of the interim dividend in respect of the 2020 financial year

The timing and savings accruing from these measures are being worked through

#### INTERIM DIVIDEND CANCELLED AMID COVID-19 UNCERTAINTY

Prudent approach to the potential impact of COVID-19 on trade given uncertainty over the extent and length of downturn

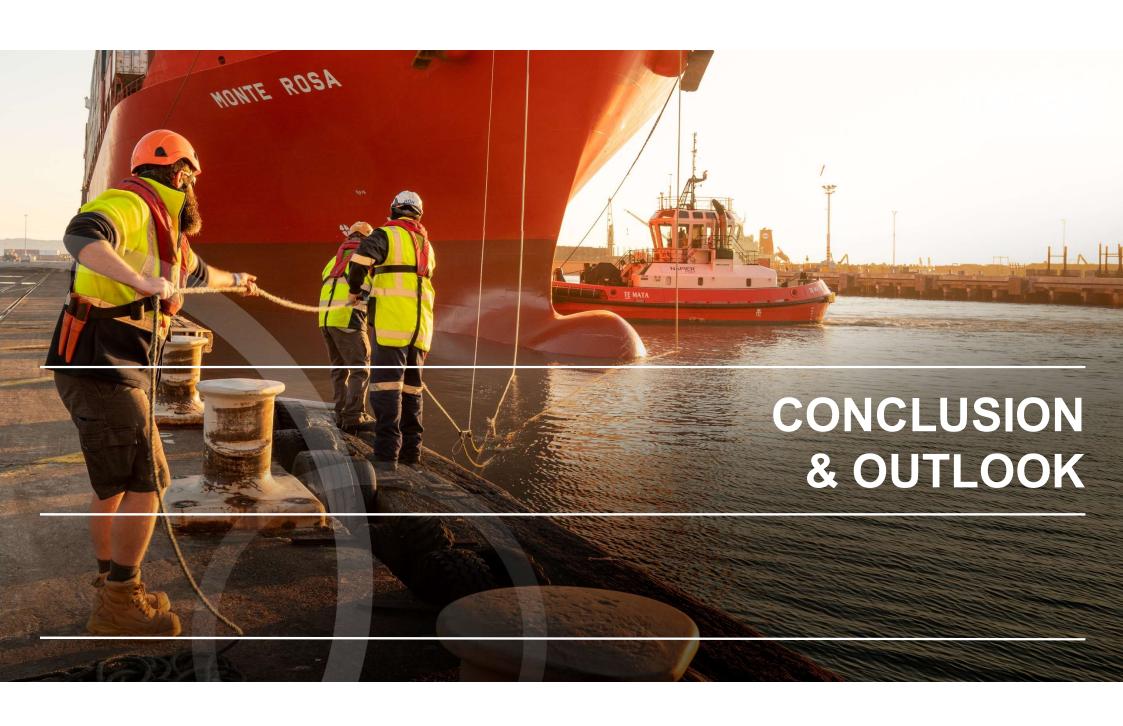

Looking forward to the post 6 Wharf balance sheet capital structure

Target of peak Debt to EBITDA of ~3.5x and maintaining covenant headroom in considerations

• Target headroom of 1x on existing covenant limit of 4.5x

Final dividend to be assessed in November

Dividend policy to apply, subject to developments and economic outlook

April trade volume down approx. 40% by weight and 29% by value vs PY May volume also expected to be materially down for month vs PY

Forestry trades have been quick to restart with on-port inventory building quickly after AL4

Key seasonal reefer trade volumes to date have been in line with expectations

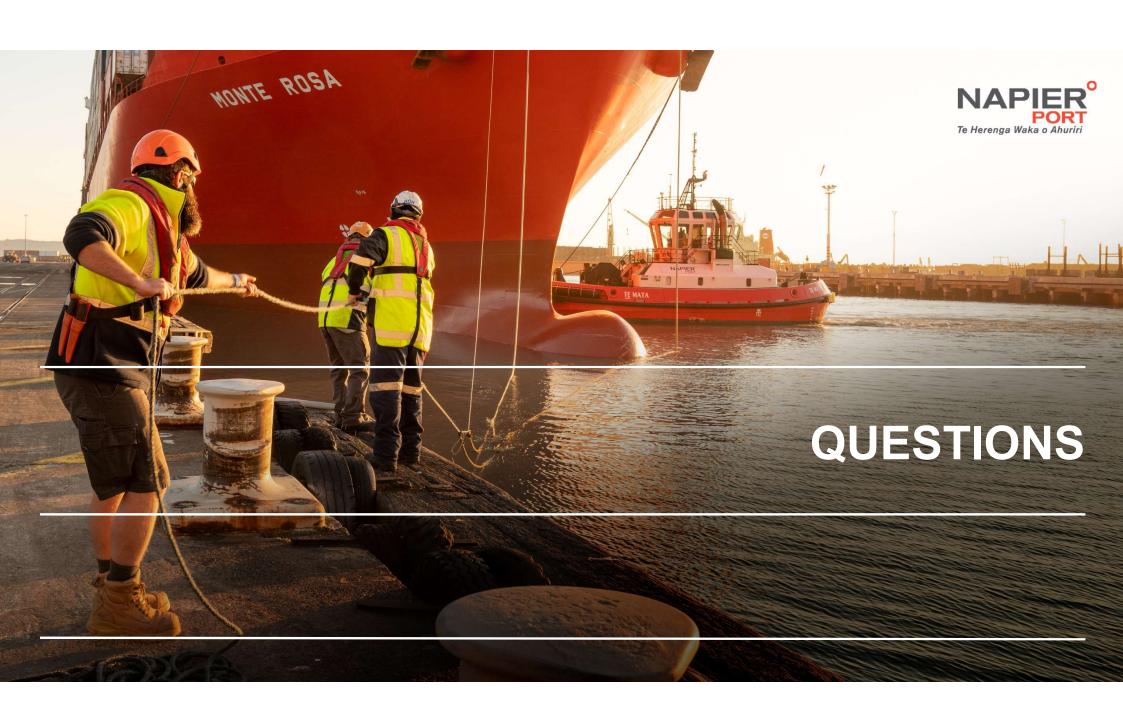

Playing 'with the wind' in the first half, 'into the wind' in the second half

Positive growth in first half-year results, good progress on strategic growth initiatives

Proactive and prudent response to COVID-19 uncertainty

Material uncertainty remains in full year earnings outlook

June quarter trade and results update - August

#### **COVID-19: SHARP REDUCTION IN FORESTRY TRADE**

#### TRADE IMPACT

The high Chinese log market inventory and extended Chinese new year period due to COVID-19 slowed log exports

Alert Level 4 ('AL4') from 26th March, Alert Level 3 from 28th April

Main operational impacts during AL4:

- timber, logs, pulp and other non-essential products ceased coming to port
- shut down of our Port Pack operation after all on-port inventory was packed
- seven remaining cruise calls cancelled
- 6 Wharf construction on hold for AL4 period

During AL4, on-port non-essential cargo was allowed to be exported & imports cleared from our sites

Whilst benefiting, relative to other businesses, from being a lifeline infrastructure asset with essential status, we have experienced decreased revenue during the lockdown period

Enduring local, national and global economic impacts remain uncertain

## **COVID-19: PRUDENT RESPONSE PLAN**

#### **RESPONSE**

People-first safety measures, COVID related leave support

Despite disrupted operations, essential services to the region maintained

Aiming to reduce or defer expenditure while looking after our people and not compromising operational capability

Measures to prudently mitigate some of the revenue cashflow loss and protect the forecast balance sheet

Focus on cash expenditures for 18 month period to end of FY21

- Reduction in director fee pool of 20%¹ for 6 months
- Deferral, on renewal, of wage and salary increases for one year
- Specific cost reductions and deferrals across capital and operational expenditure
- Receipt of the Government Wage Subsidy<sup>2</sup> of \$2m
- Cancellation of the interim dividend in respect of the 2020 financial year

The timing and savings accruing from these measures are being worked through

#### INTERIM DIVIDEND CANCELLED AMID COVID-19 UNCERTAINTY

Prudent approach to the potential impact of COVID-19 on trade given uncertainty over the extent and length of downturn

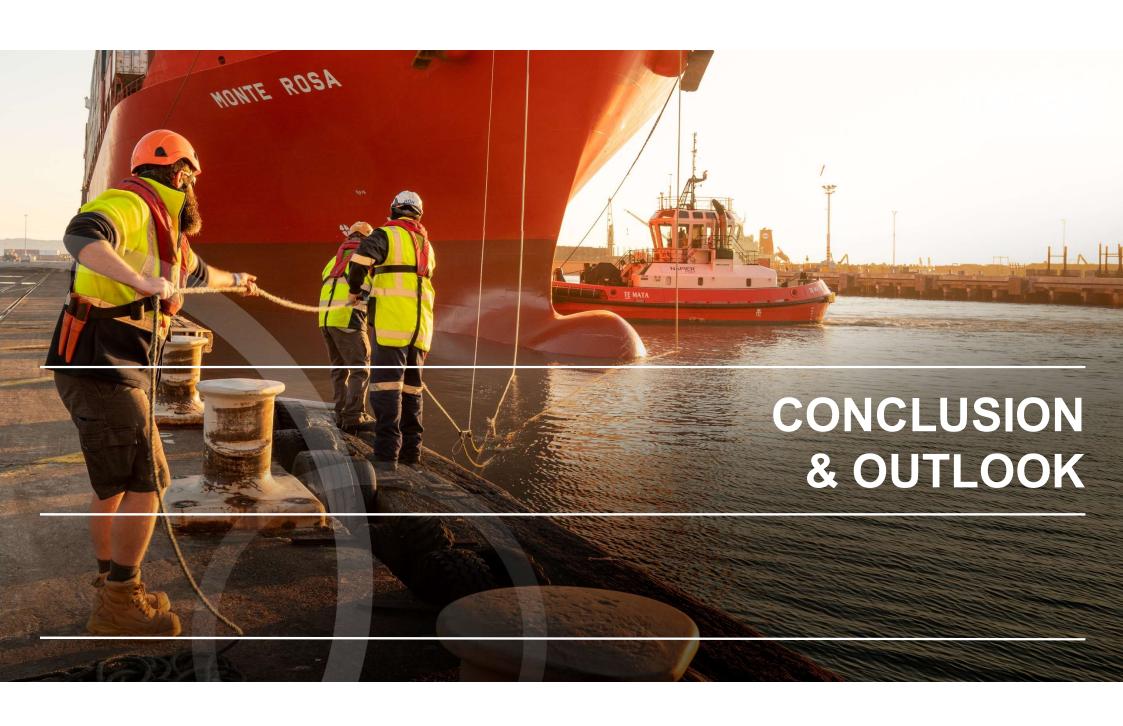

Looking forward to the post 6 Wharf balance sheet capital structure

Target of peak Debt to EBITDA of ~3.5x and maintaining covenant headroom in considerations

• Target headroom of 1x on existing covenant limit of 4.5x

Final dividend to be assessed in November

Dividend policy to apply, subject to developments and economic outlook

April trade volume down approx. 40% by weight and 29% by value vs PY May volume also expected to be materially down for month vs PY

Forestry trades have been quick to restart with on-port inventory building quickly after AL4

Key seasonal reefer trade volumes to date have been in line with expectations

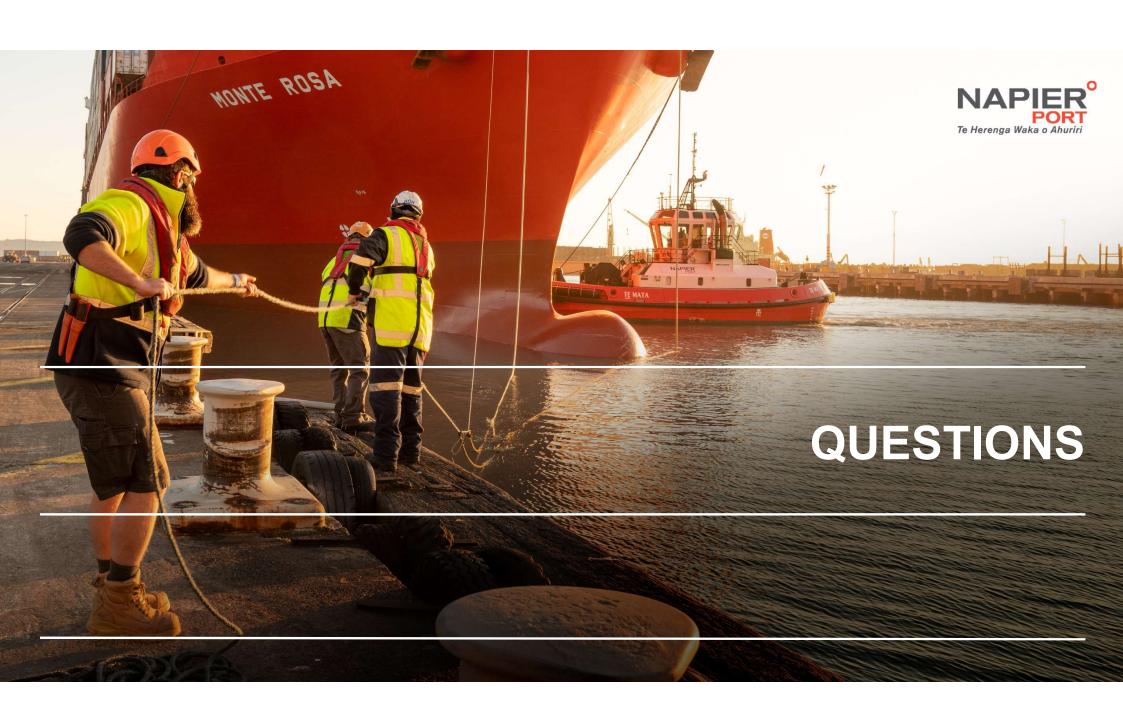

Playing 'with the wind' in the first half, 'into the wind' in the second half

Positive growth in first half-year results, good progress on strategic growth initiatives

Proactive and prudent response to COVID-19 uncertainty

Material uncertainty remains in full year earnings outlook

June quarter trade and results update - August
