## **FUEL ADJUSTMENT FACTOR (FAF)**

Napier Port Fuel Adjustment Factor (FAF) is levied to marine and container terminal service charges.

The marine FAF is charged per vessel port call covering arrival and departure, to recover diesel costs for tugs and the pilot boat launch.

The container terminal FAF is charged per TEU, to recover diesel costs for cranes, top lifters, generators and other diesel usage on port.

The FAF charges are updated monthly, based on actual monthly fuel price movements (compared with average fuel costs from FY21).

Current FAF charges can be found on the Napier Port website www.napierport.co.nz/customer-portal/fees-and-charges/faf/

Current FAF charg	ges can be found on the Napier Port website www.napierport.co.nz/customer-porto	n/fees-ana-cnarges/faf/
